

June 3, 2026
Addendum #1
FOR IMMEDIATE ATTENTION

ADDENDUM NO. 1 TO ALL BIDDERS:

Reference – Invitation for Bid:	IFB #027-0-2026/KG Locker Repair Maintenance & Related Services
For Delivery To:	Newport News Public Schools
Bids Due:	June 18, 2026 at 11:00/AM EST

The above is hereby changed to read:

Responses to Bidder questions are as follows:

1. Please clarify how many schools are included in this solicitation and identify the locations where the lockers will be delivered and /or installed? **Services will be requested on an as needed basis. Please reference I Purpose & Background, and II, Scope of Work, general requirements.**
2. The specification identifies Republic as the basis-of-design manufacturer for the lockers. Would Newport News Public Schools consider Penco lockers as an approved equal, provided the lockers match the required style, size, and overall configuration, even though the available color options may be similar but not an exact match to the specified Republic colors? Response: **The lockers shall be Republic or brand equivalent upon approval of Newport News Public Schools. Penco lockers may be considered for evaluation as an approved equal provided they meet the specified requirements for style, dimensions, construction, functionality, and overall configuration. Color options that are similar to, but not an exact match of, the basis-of-design Republic are subject to Newport News Public Schools' review and approval. The burden of demonstrating equivalency rests with the bidder, and complete product specifications and color information should be submitted with your bid for evaluation.**
3. Corridor lockers use standard gauge and Gym/Locker room use heavy duty gauge. Should bidders provide pricing for both locker types as part of their bid? **Please reference Fabrication-General #4, Products letters D-G. NNPS will consider bids for alternate products equal or better quality as stated on the cover of the IFB. Alternate products must also include descriptive literature/specification sheets to determine if the product**

is an equivalent. Additionally, should bidders include pricing for accessories that may be sold separately, such as locks, sloped tops, filler panels, and locker bases where a concrete base is not provided? **Please reference Attachment “A” Pricing Schedule.**

4. Attachment “A” requires the submission of pricing information. Please clarify the methodology or calculation that bidders should use when completing Attachment “A” to ensure pricing is submitted consistently and in accordance with the IFB requirements. **In response to the pricing schedule in Attachment A, for example for Line #2, overtime hours are to be determined utilizing the suggested 12 hours and based on any work that would be billed accordingly outside of regular business hours. So, 12 hours X hourly overtime rate = extended hourly rate. Hourly rates shall be inclusive of all overhead costs.**

All other provisions of the IFB shall remain unchanged.
